RESIDENT PORTFOLIOS

Presented by:

Lynn Cauble, C-TAGME
Wake Forest University School of Medicine

Elizabeth Krapels, CPS, C-TAGME
University of Tennessee
What is a Resident Portfolio?

- Professional Development Tool
- Records and Organizes Resident Learning
- Reflects and Facilitates feedback on Resident Skills as Physicians
- Charts Resident Progress Over Time
CONTENTS INCLUDE:

• 1) Work Portfolios
• 2) Performance Portfolios
• 3) Career Portfolios
Work Portfolios

contain resident’s submissions of work effort

- Self – Reflections of Patient Encounters
- Resident Operative Cases
- Evaluations of Program, Attendings
- Curriculum – tests, etc.
Performance Portfolios
highlight resident’s submissions of work effort

- Presentations
- In-Service Scores
- Manuscripts
- Self-assessments
- Evaluations of Performance – attendings
Career Portfolios—support professional needs of resident and may include

- Medical Staff Privileges
- Board Exam results
- Medical School Diplomas and Residency Certificates
- CV
- Background Info – USMLE Scores, credentialing items to include program/institution specific items – ACLS Certifications, CPR Certifications to name a few
ACGME - Does require a Resident Portfolio

BUT - Few guidelines on contents are available
How To Use a Resident Portfolio

- Reference of all pertinent information on all residents
  1. Present Residents – ring binder to “add” on to
  2. Past Residents – files or on discs (always available for credentialing updates)
- Reference for background information setting up “new” residents on WebAds
- Reference to view Operative Logs, Evaluations, Testing etc. while resident is in program
Whether you use E*VALUE or NEW INNOVATIONS
This can be your source for keeping information together for your residents

1) E*VALUE – http://help.evalue.net/administration/index.cfm.user-menu/myfolio
1) **MyFolio** – A repository where students, residents, etc. can collect detailed data about learning experiences. Virtual filing cabinet with files and folders created by you, can be designed unique to your program

2) **Common Uses** – versatile tool within each program
   a. Access can be locked for different folders
   b. Tracking progress through your program curriculum
   c. Developing a CV
Your administrator can link a variety of information from an individual’s E*VALUE account into their electronic portfolio such as:

a. Completed evaluation forms
b. In-Service scores
c. Case logs, procedures and diagnoses
d. Conference attendance reports
e. Work hour reports
New Innovations

1) **Journaling** – PBLI tool that is a reflection and analysis of resident experiences during program
   a. Developed and implemented by you and PD
   b. Used to improve performance
   c. Access can be set to private or public

2) **Portfolio Review** – Centralized reporting tool
   a. Can encompass: evals, op log, curriculum, duty hours, conferences, scholarly activities
   b. Set up by program administrators by Performance Reports
   c. Meets CPR for PD’s to review resident performance (II.A.4.g)
New Innovations

3) **Scholarly Activities** – Where user records details of participation in scholarly activities.
   a. Forms set up by Administrator
   b. Users share information so a single entry is all that is needed
Thank You!
