Average number of Applications Received per Program: 77 Specialties Total
ERAS Statistics

Statistics
This page contains current and historical data related to ERAS applicants and applications. It includes Specialty Specific Data, Cross Specialty Applicant Data, and quick reference Data Shots.

Preliminary Data (ERAS 2019)

Preliminary Data is collected monthly during the current ERAS season (from October - April). Email notices are sent out each month once the data is available.

- Residency EXCEL
- Fellowship EXCEL

Historical Specialty Specific Data

Aggregated specialty specific data on the number of ERAS applicants and the average number of applications by applicant and by program. This data is broken down by USMG/IMG, School Type, Gender, Self Identification, and other identifiers.
